

APURV DUHAN

Project Manager · Program & Delivery · Digital Transformation & Enterprise Technology

Dallas, TX (Open to Remote / Relocation) · (940) 703-1721 · apurvduhan23@gmail.com · [LinkedIn](#) · [Portfolio](#) · U.S. Work-Authorized — No Sponsorship Required

PROFESSIONAL SUMMARY

PMP-certified Project Manager with 4+ years delivering cross-functional, enterprise-scale programs across financial services, supply chain, and technology. Proven record of \$600K+ programs with zero schedule slippage, 100% on-time milestones across 16 Agile sprints, 32% defect reduction, and 18-20% operational efficiency gains. Expert across the full project lifecycle — Agile/Scrum, SAFe, Waterfall, RAID risk management, budget and roadmap ownership, and executive stakeholder communication — with hands-on experience in AI project governance, Azure cloud migration, and KPI/data-pipeline oversight.

CORE COMPETENCIES

- | | |
|--|---|
| ▶ Project & Program Management | ▶ Agile · Scrum · SAFe · Kanban · Waterfall |
| ▶ RAID Risk & Dependency Management | ▶ Stakeholder & Executive Communication |
| ▶ Budget Tracking & Cost Variance | ▶ Scope, Schedule & Roadmap Ownership |
| ▶ Change Management & Process Re-engineering | ▶ UAT Coordination & Quality Gates |
| ▶ Sprint Planning, Backlog & OKR/KPIs | ▶ Cross-functional Team Leadership (20+) |
| ▶ AI Project Governance & Gen AI Integration | ▶ Cloud Migration Coordination (Azure) |
| ▶ Vendor & Third-Party Management | ▶ Data Pipeline Oversight & KPI Dashboards |

TOOLS & TECHNOLOGY

Cloud & DevOps: Microsoft Azure · Azure DevOps · AWS · CI/CD oversight · Cloud Migration

Data, Analytics & AI: Power BI · Tableau · Looker · SQL · Advanced Excel · Generative AI tools

Enterprise Systems: SAP ECC/CRM · Salesforce · Lucidchart · REST APIs

PROFESSIONAL EXPERIENCE

Project Manager — IT Delivery — Freedom Mortgage

Aug 2024 – Apr 2025

Dallas, TX (Remote)

- Delivered zero schedule slippage on a \$600K+ enterprise program protecting 12,000+ loan accounts; owned the RAID log, weekly executive status reporting, and proactive dependency escalation to senior technology leadership.
- Achieved 100% on-time milestone delivery across 16 consecutive Agile sprints leading a 20-member cross-functional team, holding velocity within 5% variance.
- Cut customer-impacting defects 32% by instituting structured UAT gates, proactive defect triage, and sprint quality checkpoints.
- Led a zero-defect customer-portal migration on schedule and within budget through end-to-end planning, UAT coordination, and risk governance across engineering, QA, UX, data, and business operations.
- Reduced post-launch escalations 22% versus prior-quarter baseline by driving UX and workflow redesign with business-operations stakeholders.
- Accelerated requirements alignment ~3 weeks by translating complex business needs into 160+ user stories with full acceptance criteria, reducing rework and scope creep.

Supply Chain Project Manager — Agilent Technologies

Feb 2022 – Aug 2023

Manesar, India

- Reduced delivery turnaround 18-20% across 18 monthly shipment cycles via cross-functional process redesign: root-cause analysis, SOP standardization, and vendor escalation protocols.

- Sustained 96% supply-continuity compliance across international operations (Germany, Brazil, Europe, Asia Pacific), coordinating 12+ vendors, logistics partners, and customs teams.
- Built Power BI and Excel KPI dashboards tracking on-time delivery, order accuracy, backlog, and vendor performance across 120+ active SKUs.
- Managed capital-project scheduling and budget tracking across 6 concurrent import work streams, flagging cost variances before they impacted timelines.
- Improved new-associate productivity 30% by designing and delivering SAP ECC workflow onboarding and SOP training.

Customer Service & Operations Specialist — Bharat Optimum Sales & Services Jul 2020 – Jan 2022
Gurugram, India

- Improved order-processing accuracy 15% by designing data-validation checks and SOPs across 50–70 daily SAP ECC transactions.
- Decreased average issue-resolution time 25% by coordinating cross-functionally between operations and logistics to resolve delivery discrepancies.

EDUCATION

Master of Science, Information Studies — Trine University, Angola, IN Aug 2023 – May 2026
GPA 3.82 · Concentration: Technology Management & AI Governance

Bachelor of Technology, Computer Science — Kurukshetra University, India 2021
68% · Computer Science & Engineering
